RESEARCH INTERESTS

Senior Fullstack Engineer with 9+ years of experience architecting and delivering scalable web applications using Python, TypeScript, React, and Next.js. Proven ability to lead cross-functional teams in high-growth Egyptian startups and international tech companies, driving product innovation from concept to deployment. Expert in building full-stack frameworks and leveraging modern cloud services (AWS, GCP) to ensure performance, reliability, and developer productivity.

EDUCATION

Cairo University 2013-06
Bachelor of Science in Computer Science in Computer Science

PROFESSIONAL EXPERIENCE

Software Engineer, Fawry 2015-01 – 2017-06
Developed and maintained digital payment solutions using Java and JavaScript. Built RESTful APIs and integrated third-party payment gateways. Collaborated with frontend team to implement responsive UIs.

Fullstack Engineer, Amazon 2017-07 – 2019-06
Designed and implemented customer-facing features for Amazon.eg's e-commerce platform using React and Node.js. Built microservices in Python (Flask) and deployed on AWS Lambda, reducing latency by 30%.

Senior Fullstack Engineer, Swvl 2019-07 – 2021-12
Led the full-stack re-architecture of Swvl's booking platform using Next.js and Python. Mentored junior engineers and introduced CI/CD pipelines, cutting deployment time by 50%.

Senior Fullstack Engineer, Instabug 2022-01 – 2023-06
Contributed to the Instabug dashboard and SDK integrations, improving real-time bug reporting performance. Built internal tools with Blitz.js and TanStack Router, enhancing developer experience.

Lead Fullstack Engineer, Vezeeta 2023-07 – Present
Heading the patient experience squad, overseeing the development of a new appointment booking engine using a full-stack TypeScript monorepo. Driving adoption of Reflex for internal data dashboards and maintaining high system availability.

TECHNICAL PROFICIENCIES

Python, TypeScript, JavaScript, React, Next.js, Node.js, Flask, Blitz.js, TanStack Router, Reflex, HTML/CSS, SQL, PostgreSQL, MongoDB, Docker, Kubernetes, AWS, Google Cloud, GraphQL, Git, Agile/Scrum, Leadership

CERTIFICATIONS

AWS Certified Solutions Architect – Associate — Amazon Web Services, 2021-06
Google Professional Cloud Developer — Google Cloud, 2022-12

SELECTED PROJECTS

cc-switch [Rust] — A cross-platform desktop All-in-One assistant for Claude Code, Codex, OpenCode, OpenClaw, Gemini CLI & Hermes Agent. Only official website: ccswitch.io

deer-flow [Python] — An open-source long-horizon SuperAgent harness that researches, codes, and creates. With the help of sandboxes, memories, tools, skill, subagents and message gateway, it handles different levels of tasks that could take minutes to hours.

ruflo [TypeScript] —  The leading agent orchestration platform for Claude. Deploy intelligent multi-agent swarms, coordinate autonomous workflows, and build conversational AI systems. Features enterprise-grade architecture, self-learning swarm intelligence, RAG integration, and native Claude Code / Codex Integration

hexo [TypeScript] — A fast, simple & powerful blog framework, powered by Node.js.

TypeScript [TypeScript] — TypeScript is a superset of JavaScript that compiles to clean JavaScript output.
