Professional Profile

Full Stack Developer with 5 years of experience building scalable web applications using modern JavaScript, Python, and TypeScript. Skilled in React, Node.js, Next.js, and cloud services. Passionate about clean code, agile methodologies, and open-source contributions.

Core Competencies

JavaScript · TypeScript · Python · React · Node.js · Next.js · Django · PostgreSQL · MongoDB · Docker · AWS · Git · HTML · CSS · GraphQL · REST APIs · Agile

Professional Experience

Full Stack Developer at Fawry (2021-06 – Present)

Developed and maintained payment gateway microservices and customer-facing web applications using React, Node.js, and PostgreSQL. Integrated with external banking APIs and deployed on AWS. Improved transaction processing speed by 30% through code optimization and database indexing.

Software Engineer at Vezeeta (2019-09 – 2021-05)

Built internal dashboards and patient booking features for the healthcare platform using React, Python (Django), and MongoDB. Implemented real-time notifications with WebSockets. Collaborated with UI/UX designers to enhance user experience and led migration of legacy REST endpoints to GraphQL.

Junior Full Stack Developer at Breadfast (2018-07 – 2019-08)

Assisted in developing e-commerce features for the grocery delivery app using React Native, Node.js, and MySQL. Contributed to API development, unit testing, and code reviews. Participated in daily stand-ups and sprint retrospectives in an Agile team.

Education

Bachelor of Science in Computer Science — Cairo University (2018-06)

Projects

[jsoncrack.com](#) (TypeScript)

🌟 Innovative and open-source visualization application that transforms various data formats, such as JSON, YAML, XML and CSV into interactive graphs.

[preact](#) (JavaScript)

🌀 Fast 3kB React alternative with the same modern API. Components & Virtual DOM.

[remotion](#) (TypeScript)

🎬 Make videos programmatically with React

storybook (TypeScript)

Storybook is the industry standard workshop for building, documenting, and testing UI components in isolation

react-native (C++)

A framework for building native applications using React

Certifications

AWS Certified Developer – Associate — Amazon Web Services

Google Cloud Associate Cloud Engineer — Google Cloud

Professional Scrum Master I — Scrum.org
