[linkedin.com/in/youssefmhassan](https://www.linkedin.com/in/youssefmhassan)

Executive Summary

Enthusiastic junior full-stack developer with 2 years of experience building scalable web applications using modern JavaScript/TypeScript frameworks and Python. Proven ability to deliver end-to-end solutions, from database design to frontend UI, with a focus on performance and clean code. Passionate about learning new technologies and contributing to impactful projects.

Leadership Experience

Associate Fullstack Developer

2025-01 – Present

Breadfast

Developed and maintained internal admin dashboard using React and TypeScript, integrating with backend Python services. Implemented REST APIs with Flask and managed PostgreSQL database. Collaborated with cross-functional teams to optimize order tracking features, improving delivery efficiency by 15%.

Junior Fullstack Developer

2023-06 – 2024-12

Vezeeta

Built responsive web interfaces for healthcare booking platform using React and Redux. Developed scalable backend microservices in Python with Flask, handling appointment scheduling. Integrated third-party APIs for payment and notifications, and wrote unit tests ensuring 90% code coverage.

Software Engineer Intern

2022-09 – 2023-05

Paymob

Contributed to backend services for payment processing using Python and Django. Assisted in building RESTful APIs and optimizing database queries. Participated in agile development, including daily stand-ups and sprint planning.

Web Development Intern

2022-06 – 2022-08

Swvl

Designed and developed a student dashboard prototype using React and Firebase for real-time transit booking. Learned modern web development practices and collaborated with senior engineers.

Education

B.Sc. Computer Science in Computer Science — Cairo University, Faculty of Computers and Artificial Intelligence, 2022-06

High School Diploma in Scientific Track — STEM October School (6th October), 2018-06

Key Skills

Python | TypeScript | JavaScript | HTML/CSS | React | Flask | Next.js | PostgreSQL | Git | Docker | REST APIs | Agile Methodology | Teamwork

Projects

scikit-learn (Python)

scikit-learn: machine learning in Python

superset (TypeScript)

Apache Superset is a Data Visualization and Data Exploration Platform

MinerU (Python)

Transforms complex documents like PDFs and Office docs into LLM-ready markdown/JSON for your Agentic workflows.

thefuck (Python)

Magnificent app which corrects your previous console command.

memo (Python)

Universal memory layer for AI Agents

Credentials

AWS Certified Cloud Practitioner — Amazon Web Services, 2024-06

Google IT Automation with Python Professional Certificate — Google/Coursera, 2023-09

Meta Front-End Developer Professional Certificate — Meta/Coursera, 2023-12
