About Me

Driven Fullstack Developer intern with a strong foundation in Python and JavaScript, complemented by hands-on experience in building and contributing to web applications. Skilled in React, Next.js, Flask, and modern cloud technologies. Passionate about translating complex problems into elegant, scalable solutions. Eager to leverage academic knowledge and internship experience to deliver impactful fullstack products in a collaborative, fast-paced environment.

Education

High School Diploma in Science and Mathematics 2024-06

STEM Egypt High School for Boys

Bachelor of Science in Computer Science 2028-06

Cairo University

Projects

novu (2026-05)

Agile Methodology

Internships / Experience

Web Development Intern at Microsoft ATL Cairo (2025-04 – Present)

Collaborated with the web platform team to develop internal tools using React and TypeScript. Assisted in implementing RESTful APIs and conducted unit testing, contributing to a 15% improvement in feature delivery speed.

Fullstack Developer Intern at Fawry (2025-01 – 2025-03)

Contributed to the digital payments platform by building reusable React components and integrating backend services with Flask. Participated in code reviews and agile ceremonies, helping to reduce UI bugs by 20%.

Frontend Developer Intern at Vezeeta (2024-09 – 2024-12)

Enhanced the patient booking experience by optimizing React components and implementing responsive design. Worked closely with the UX team to deliver an accessible and performant frontend, resulting in a 10% increase in user engagement.

Software Engineering Intern at Instabug (2024-06 – 2024-08)

Supported the SDK team by writing Python scripts for automated testing and data analysis. Gained exposure to fullstack development cycles and contributed to internal documentation and knowledge base articles.

Certifications

AWS Certified Cloud Practitioner — Amazon Web Services

Microsoft Certified: Azure Fundamentals — Microsoft

Google IT Automation with Python Professional Certificate — Google / Coursera
