SUMMARY

Versatile Full Stack Developer with 5 years of hands-on experience in designing and delivering scalable web applications. Proficient in both front-end (React, Next.js, TypeScript) and back-end (Python, Flask, Node.js) technologies, with a solid track record in Egyptian tech companies and a global cloud provider. Passionate about clean code, performance optimization, and mentoring junior developers. Active open-source contributor with a focus on developer tooling and fullstack frameworks.

WORK EXPERIENCE

Full Stack Developer 2019-09 — 2021-06
Vezeeta (full-time)

Developed and maintained the patient booking platform using React, Node.js, and PostgreSQL. Integrated third-party telemedicine APIs and implemented a real-time notification system. Contributed to a 30% improvement in page load speed through code splitting and Redis caching.

Full Stack Developer (SDK Team) 2021-07 — 2023-03
Instabug (full-time)

Built internal dashboards and analytics tools to monitor SDK performance using Next.js and Python Flask. Enhanced the bug-reporting pipeline with automated crash grouping, reducing triage time by 40%. Led a migration from monolithic frontend to micro-frontend architecture.

Senior Full Stack Engineer 2023-04 — 2024-08
Breadfast (full-time)

Architected the logistics back-office system from scratch, serving 200+ delivery agents and warehouse staff. Designed RESTful APIs in Node.js and a real-time inventory dashboard with React and WebSocket. Drove adoption of CI/CD pipelines, cutting deployment frequency from bi-weekly to daily.

Full Stack Developer 2024-09 — Present
Amazon (Egypt Development Center) (full-time)

Build and optimize internal workforce management tools used across fulfillment centers. Work with a global team on microservices in Java and Python, and a React/TypeScript UI. Champion accessibility and performance best practices, contributing to a 20% faster data-entry flow for operations staff.

EDUCATION

Bachelor of Science in Computer Science 2019-06
Cairo University

SKILLS

Python, TypeScript, JavaScript, React, Next.js, Flask, Node.js, PostgreSQL, MongoDB, Docker, Git, AWS, HTML/CSS, Agile/Scrum, English (Fluent)

PROJECTS

[ionic-framework](#) (TypeScript)

A powerful cross-platform UI toolkit for building native-quality iOS, Android, and Progressive Web Apps with HTML, CSS, and JavaScript.

expo (*TypeScript*)

An open-source framework for making universal native apps with React. Expo runs on Android, iOS, and the web.

plane (*TypeScript*)

🔥🔥🔥 Open-source Jira, Linear, Monday, and ClickUp alternative. Plane is a modern project management platform to manage tasks, sprints, docs, and triage.

styled-components (*TypeScript*)

Fast, expressive styling for React. Server components, client components, streaming SSR, React Native—one API.

react-native (*C++*)

A framework for building native applications using React

CERTIFICATIONS

AWS Certified Developer – Associate — Amazon Web Services (2022-05)

Meta Front-End Developer Professional Certificate — Coursera / Meta (2023-01)
