Google, 2021-09

Profile

Enthusiastic junior mobile developer with 3 years of experience building high-performance cross-platform apps using Flutter and React Native. Passionate about crafting intuitive user interfaces and delivering seamless mobile experiences. Quick learner, team player, and open-source contributor with a track record of implementing efficient, scalable solutions.

Experience

Mobile Developer2023-07 — Present
Instabug

Developing and maintaining the Instabug SDK for Flutter, improving crash reporting and in-app feedback features for thousands of mobile developers worldwide. Collaborating with product and design teams to ship new features on a monthly release cycle.

Junior Flutter Developer2022-01 — 2023-06
Breadfast

Built customer-facing mobile apps for Egypt's leading grocery delivery platform, integrating payment gateways (Fawry, Paymob) and real-time order tracking. Optimized app performance, reducing cold-start time by 30%.

Mobile Developer Intern2021-06 — 2021-12
Swvl

Assisted the mobile team in developing new features for the Swvl passenger app using React Native. Gained hands-on experience with cross-platform development, push notifications, and code reviews.

Education

Bachelor of Science in Computer Science2021-06
Cairo University

Projects

sdk
The Dart SDK, including the VM, JS and Wasm compilers, analysis, core libraries, and more.

lsp-mode
Emacs client/library for the Language Server Protocol

gallery
Flutter Gallery was a resource to help developers evaluate and use Flutter

fvm
Flutter Version Management: A simple CLI to manage Flutter SDK versions.

one-day-one-language
Cómo dar en un día tus primeros pasos en cada lenguaje de programación. Introducción, configuración e instalación, usos habituales, fundamentos, sintaxis y próximos pasos.
