About Me

Full Stack Developer with 5 years of experience building and scaling web applications across fintech, healthtech, and SaaS. Proficient in JavaScript/TypeScript ecosystems (React, Node.js, Next.js) and Python (Flask, data tooling). Skilled in cloud-native development with AWS and Azure, containerization, and CI/CD pipelines. Adept at leading feature teams and delivering high-performance, user-centric products in agile environments.

Education

Bachelor of Science in Computer Science in Computer Science

2019-06

Ain Shams University

Projects

ant-design (2026-05)

An enterprise-class UI design language and React UI library

Tech: TypeScript

jsoncrack.com (2026-05)

🌟 Innovative and open-source visualization application that transforms various data formats, such as JSON, YAML, XML and CSV into interactive graphs.

Tech: TypeScript

30-Days-Of-JavaScript (2026-05)

30 days of JavaScript programming challenge is a step-by-step guide to learn JavaScript programming language in 30 days. This challenge may take more than 100 days, please just follow your own pace. These videos may help too: <https://www.youtube.com/channel/UC7PNRuno1rzYPb1xLa4ykTw>

Tech: JavaScript

full-stack-fastapi-template (2026-05)

Full stack, modern web application template. Using FastAPI, React, SQLAlchemy, PostgreSQL, Docker, GitHub Actions, automatic HTTPS and more.

Tech: TypeScript

novu (2026-05)

The open-source notification infrastructure. In-app Inbox component, E-mail, SMS, Push and Slack Integrations.

Tech: TypeScript

Skills

Python JavaScript TypeScript React Node.js Next.js Flask SQL NoSQL Docker
Kubernetes AWS Git CI/CD Agile Methodologies Communication

Internships / Experience

Junior Full Stack Developer at Vezeeta (2020-01 – 2021-06)

Developed new features for patient appointment scheduling system using React and Node.js, improving API response times by 30% through query optimization and caching strategies.

Full Stack Developer at Instabug (2021-07 – 2023-01)

Built dashboard applications for mobile app performance monitoring, utilizing Python Flask backend and React frontend; integrated third-party crash reporting services and implemented role-based access control.

Software Engineer at Microsoft (2023-02 – 2024-08)

Contributed to internal tools for Azure DevOps team, focusing on full-stack solutions with C# and Angular for admin panels, while building Python data pipelines for usage analytics.

Senior Full Stack Developer at Fawry (2024-09 – Present)

Leading payment integration team, architecting scalable microservices with Node.js and React; implementing DevOps practices with Docker, Kubernetes, and AWS, achieving 99.9% uptime for critical payment workflows.

Certifications

AWS Certified Developer – Associate — Amazon Web Services

Google Cloud Professional Cloud Developer — Google

Certified Kubernetes Application Developer — The Linux Foundation
