Email	fchatgpt002@gmail.com	Phone	+20 10 1234 5678
Location	Cairo, Egypt	Domain	ml_engineering
LinkedIn	linkedin.com/in/ahmedabdelaziz	GitHub	github.com/ahmedabdelaziz

Summary

Experienced Machine Learning Engineer with over 5 years of hands-on experience in building and deploying scalable AI solutions. Expertise in deep learning, NLP, and MLOps using TensorFlow, PyTorch, and Hugging Face Transformers. Proven track record of delivering impactful models in high-growth tech environments, including Vezeeta, Swvl, and AWS. Passionate about open-source contributions and leveraging state-of-the-art techniques to solve complex problems.

Work Experience

Period	Role & Company	Description
2019-07 2021-02	Machine Learning Engineer Vezeeta	Developed NLP models for medical entity recognition and symptom-based search using BERT and Hugging Face Transformers, improving patient-doctor matching accuracy by 30%. Built inference pipelines with FastAPI and Docker.
2021-03 2021-09	Machine Learning Consultant Breadfast	Designed demand forecasting models for last-mile delivery optimization, reducing delivery time by 15%. Implemented a recommendation system for personalized product suggestions using TensorFlow and BigQuery.
2021-10 2023-05	Senior Machine Learning Engineer Swvl	Led development of deep learning models for dynamic route optimization and demand-supply matching, handling millions of daily trip requests. Deployed models on AWS SageMaker with automated retraining pipelines.
2023-06 Present	Machine Learning Engineer II Amazon Web Services (AWS) Egypt	Collaborate with cross-functional teams to design and implement end-to-end ML solutions for regional clients. Optimize model training and inference performance on SageMaker, and contribute to internal MLOps best practices.

Education

Year	Degree	Institution
2017-06	Bachelor of Science in Computer Engineering in Computer Engineering	Cairo University

Projects

Project	Technologies	Description
thefuck	Python	Magnificent app which corrects your previous console command.
HelloGitHub	Python	:octocat: 分享 GitHub 上有趣、入门级的开源项目。Share interesting, entry-level open source projects on GitHub.
superset	TypeScript	Apache Superset is a Data Visualization and Data Exploration Platform
ComfyUI	Python	The most powerful and modular diffusion model GUI, api and backend with a graph/nodes interface.
manim	Python	Animation engine for explanatory math videos

Skills

Python | C++ | SQL | TensorFlow | PyTorch | Hugging Face Transformers | Keras | scikit-learn | AWS (SageMaker, EC2, S3) | Docker | Kubernetes | MLflow | CI/CD (GitHub Actions, Jenkins) | Git | Jupyter Notebook | NLP | Deep Learning | Large Language Models (LLM)

Certifications

Name	Issuer	Date
TensorFlow Developer Certificate	Google	2020-09
AWS Certified Machine Learning – Specialty	Amazon Web Services	2022-04
Google Cloud Professional Machine Learning Engineer	Google Cloud	2023-08
