Summary

Motivated Junior ML Engineer with 2 years of hands-on experience in designing, training, and deploying machine learning models using Python, TensorFlow, PyTorch, and Hugging Face Transformers. Passionate about leveraging open-source frameworks to solve real-world problems, with practical exposure to NLP, computer vision, and end-to-end ML pipelines. Proactive contributor to community projects and continuous learner, seeking to apply skills in a collaborative, fast-paced environment.

Experience

Junior Machine Learning Engineer at Instabug

2023-01 – Present

Developed and optimized ML models for bug detection and user session analysis. Built data pipelines using Python, Pandas, and Apache Airflow. Integrated Hugging Face Transformers for NLP-based bug report classification. Collaborated with senior engineers to deploy models on AWS SageMaker.

Data Scientist (Internship) at Vezeeta

2022-06 – 2022-12

Assisted in building recommendation systems for doctor-patient matching. Performed exploratory data analysis on healthcare datasets and implemented NLP-based symptom extraction from patient queries. Used PyTorch and TensorFlow for model prototyping.

AI Engineering Intern at Microsoft Egypt

2022-01 – 2022-05

Worked with the Azure AI team to evaluate and fine-tune pre-trained models on custom datasets. Gained experience with Azure ML Studio and contributed to internal tools for automated model monitoring.

Education

Bachelor of Science in Computer Engineering — Cairo University (2022-06)

Skills

Python C++ TensorFlow PyTorch Hugging Face Transformers scikit-learn Pandas NumPy
Jupyter Notebook SQL Docker Git HTML Azure ML AWS SageMaker

Projects

ML-For-Beginners

12 weeks, 26 lessons, 52 quizzes, classic Machine Learning for all

core

:house_with_garden: Open source home automation that puts local control and privacy first.

localstack

🏠 A fully functional local AWS cloud stack. Develop and test your cloud & Serverless apps offline

Real-Time-Voice-Cloning

Clone a voice in 5 seconds to generate arbitrary speech in real-time

sherlock

Hunt down social media accounts by username across social networks

Certifications

AWS Certified Machine Learning – Specialty — Amazon Web Services
TensorFlow Developer Certificate — Google
