Profile

Seasoned full-stack developer with over 8 years of experience crafting scalable web applications using Python, TypeScript, and React ecosystems. Proven track record in leading cross-functional teams and delivering high-impact solutions for fintech and healthtech sectors. Passionate about open-source contributions and continuous learning, with a strong focus on performance, reliability, and modern cloud-native architectures.

Experience

Junior Fullstack Developer at Breadfast 2016-01 – 2018-06

Developed and maintained the company's e-commerce platform using React and Node.js. Implemented inventory management, user authentication, and a real-time order tracking dashboard. Collaborated with UX designers and product managers to deliver a mobile-first interface.

Fullstack Developer at Swvl 2018-07 – 2020-02

Built real-time tracking and routing microservices for a mass-transit platform, integrating Google Maps APIs. Developed internal admin dashboards with React and TypeScript. Migrated legacy PHP backend to Node.js, reducing API response times by 35%.

Senior Fullstack Engineer at Vezeeta 2020-03 – 2022-05

Led the engineering of patient-facing booking platform and analytics dashboard serving millions of users. Designed RESTful APIs with Django REST framework and GraphQL endpoints. Optimized database queries, achieving 25% reduction in page load times.

Lead Fullstack Developer at Paymob 2022-06 – 2023-12

Headed a team of five developers to build a payment-gateway integration platform. Architected micro-frontends with Next.js and backend services with Node.js. Introduced Kubernetes for orchestration and CI/CD pipelines, improving deployment frequency by 60%.

Senior Fullstack Engineer at Microsoft 2024-01 – Present

Designing and implementing full-stack solutions for Azure developer tools. Building React-based frontends integrated with .NET Core backends. Driving adoption of best practices in testing and observability across the team.

Education

Bachelor of Science, Computer and Systems Engineering 2015-06

Ain Shams University

Technical Skills

Python, TypeScript, JavaScript, React, Next.js, Node.js, Django, .NET Core, GraphQL, Docker, Kubernetes, AWS, Azure, PostgreSQL, MongoDB, Redis, Git, CI/CD, Agile

Projects

freeCodeCamp — freeCodeCamp.org's open-source codebase and curriculum. Learn math, programming, and computer science for free.

react — The library for web and native user interfaces.

next.js — The React Framework

react-native — A framework for building native applications using React

free-programming-books-zh_CN — :books: 免费的计算机编程类中文书籍，欢迎投稿

Certifications

AWS Certified Developer – Associate (Amazon Web Services, 2021-09)

Microsoft Certified: Azure Developer Associate (Microsoft, 2022-05)

Certified Kubernetes Application Developer (CKAD) (The Linux Foundation, 2023-03)
