PROFESSIONAL SUMMARY

Junior ML Engineer passionate about building end-to-end machine learning systems. Skilled in Python, TensorFlow, and PyTorch with hands-on experience in training, fine-tuning, and deploying deep learning models. Proven track record of contributing to scalable ML pipelines in fast-paced startup environments. Eager to apply cutting-edge research to real-world problems.

EMPLOYMENT HISTORY

2022-08 – 2023-07	Junior Machine Learning Engineer at Fawry Assisted in developing fraud detection models using gradient boosting and deep learning. Built data pipelines and automated model retraining workflows on cloud infrastructure.
2023-08 – 2024-09	Machine Learning Engineer at Instabug Owned the ML lifecycle for bug prioritization and crash analytics. Deployed transformer-based models to classify user feedback and reduced manual triage time by 40%.
2024-10 – Present	Machine Learning Engineer at Swvl Optimizing real-time routing and demand prediction models. Designing scalable feature stores and serving infrastructure for low-latency inference.

EDUCATION

2022-06	Bachelor of Science in Computer Science and Artificial Intelligence, Zewail City of Science and Technology
---------	---

TECHNICAL SKILLS

Python	C++	SQL	TensorFlow
PyTorch	Scikit-learn	Hugging Face Transformers	Deep Learning
Natural Language Processing (NLP)	Computer Vision	MLflow	Docker

CERTIFICATIONS

2023-12	AWS Certified Machine Learning – Specialty – Amazon Web Services
2024-06	TensorFlow Developer Certificate – Google
2024-02	Google Cloud Professional Machine Learning Engineer – Google Cloud
