Professional Profile

Enthusiastic full-stack developer with 2 years of experience building scalable web applications using Python and TypeScript. Proficient in React, Flask, and database management. Passionate about clean code and continuous learning, demonstrated through active contributions to open-source projects. Based in Cairo, Egypt.

Core Competencies

Python · TypeScript · JavaScript · React · Flask · Node.js · Express.js · PostgreSQL · MongoDB · Git · Docker · AWS

Professional Experience

Full-stack Development Intern at Swvl (2022-06 – 2022-09)

Developed and maintained internal dashboard features using React and Django REST framework. Collaborated with senior engineers to implement real-time ride tracking updates.

Junior Full-stack Developer at Breadfast (2022-10 – 2023-12)

Built customer-facing order management system with React frontend and Flask backend. Integrated payment gateways and optimized database queries, improving response times by 30%.

Full-stack Developer at Fawry (2024-01 – Present)

Design and develop microservices for digital payment platform using Node.js and TypeScript. Build responsive admin panels with React and implement CI/CD pipelines with Docker and AWS.

Education

Bachelor of Science in Computer Science — Cairo University (2022-05)

Certifications

AWS Certified Cloud Practitioner — Amazon Web Services

Google Cloud Digital Leader — Google Cloud

MongoDB Associate Developer — MongoDB University
