## Executive Summary

Senior Fullstack Engineer with over 8 years of experience designing and delivering scalable web applications. Expertise in Python and TypeScript ecosystems, building end-to-end solutions using React/Next.js, Flask, and cloud-native services. Proven track record in leading development teams, architecting microservices, and optimizing CI/CD pipelines. Passionate about clean code, open-source contributions, and mentoring junior developers.

## Leadership Experience

### Senior Fullstack Engineer

2021-03 – Present

*Instabug*

Lead frontend and backend development for core dashboard features used by thousands of mobile developers. Architected a microservices-based backend using Python (Flask) and migrated legacy frontend from Angular to Next.js, improving page load times by 40%. Collaborated with cross-functional teams to integrate AI-driven crash reporting analytics. Mentored a team of 4 junior engineers.

### Fullstack Developer

2018-08 – 2021-02

*Vezeeta*

Built and maintained the patient-facing web application and internal clinic management system. Developed RESTful APIs with Node.js/Express and real-time booking features using WebSockets. Implemented responsive UI with React and Redux, handling 500k+ monthly active users. Optimized database queries leading to a 30% reduction in server response times.

### Software Engineer

2016-09 – 2018-07

*Fawry*

Contributed to the digital payments platform, focusing on backend transaction processing. Developed high-throughput APIs in Python (Django) and integrated with multiple Egyptian banks. Enhanced security protocols and achieved PCI DSS compliance for the payment gateway.

### Junior Fullstack Developer

2015-06 – 2016-08

*ITWorx*

Assisted in building web applications for educational and logistics clients. Worked on both frontend (AngularJS) and backend (Java Spring), gaining foundational fullstack skills. Participated in code reviews and unit testing.

## Education

**Bachelor of Science** in Computer Engineering — Cairo University, 2015-06

## Key Skills

---

Python | JavaScript | TypeScript | HTML5 & CSS3 | React | Next.js | Flask | Django | Node.js | Express | Redux | PostgreSQL | MongoDB | Docker | Git | AWS | Jenkins | GitLab CI

## Credentials

---

|                                                                                     |
|-------------------------------------------------------------------------------------|
| <b>AWS Certified Solutions Architect – Associate</b> — Amazon Web Services, 2022-11 |
| <b>MongoDB Certified Developer Associate</b> — MongoDB, 2021-05                     |
| <b>Professional Cloud Developer</b> — Google Cloud, 2023-03                         |
