Who I Am

Motivated Game Developer with 2+ years of experience in designing and implementing gameplay systems using C++, C#, Python, and game engines such as Unity and Unreal Engine. Passionate about performance optimization and data-oriented design, with hands-on contributions to open-source projects like EnTT ECS library and Recast Navigation. Strong foundation in computer science from Cairo University and a proven ability to collaborate in fast-paced Agile teams. Eager to tackle complex game AI and physics challenges.

My Journey

Game Development Intern @ Game Cooks

2021-06 → 2022-06

Assisted in developing mobile games using Unity and C#, implemented UI features, and participated in code reviews.

Junior Gameplay Programmer @ Lupus Studios

2022-07 → 2023-08

Developed core gameplay mechanics for a puzzle-platformer using Unreal Engine 4 and C++. Implemented character movement, collision systems, and UI integration. Optimized rendering performance for mobile platforms.

Unity Developer @ AppsSquare

2023-09 → 2024-02

Contributed to hyper-casual mobile game projects. Designed and prototyped game levels, integrated ads and analytics SDKs, and conducted A/B testing for gameplay metrics.

Associate Gameplay Programmer @ MENA Gaming Hub

2024-03 → Present

Working on an open-world RPG prototype utilizing data-oriented ECS architecture. Implemented AI pathfinding with Recast Navigation, designed entity interactions using EnTT, and contributed to build pipeline automation.

Where I Studied

Bachelor of Science in Computer Science, Computer Science

Cairo University (2022-06)

What I Work With

C++

C

C#

Python

Unity

Unreal Engine

Godot

Pygame

SDL

OpenGL

EnTT

Recastnavigation

Entity Component System

Data-Oriented Design

Game AI

Navigation Mesh

Git

Visual Studio

Blender

Problem Solving

Team Collaboration

Agile Methodologies

Things I've Built

entt

Gaming meets modern C++ - a fast and reliable entity component system (ECS) and much more

pygame

 pygame (the library) is a Free and Open Source python programming language library for making multimedia applications like games built on top of the excellent SDL library. C, Python, Native, OpenGL.

recastnavigation

Industry-standard navigation-mesh toolset for games

GameDev-Resources

:video_game: :game_die: A wonderful list of Game Development resources.

QFramework

Godot/Unity3D System Design Architecture

Credentials

Unity Certified Associate: Game Developer — Unity Technologies (2022-12)

AWS Certified Cloud Practitioner — Amazon Web Services (2023-06)

Professional Scrum Master I — Scrum.org (2023-08)
