

Chelsea Carroll

Backend Engineering · Lead · 11.5y
chelsea.carroll@gmail.com · 2269649091 · Lake Mark, Singapore

Who I Am

Senior technical leader specializing in backend engineering with expertise in Python, Rust, NestJS. Proven success in technical vision, team development, and stakeholder management.

My Journey

- LLM Engineer @ Uber**
2023-11 → Present
Optimized database queries using CI/CD, improving query performance by 36%
Designed and implemented message queue system using CI/CD, processing 500+ messages/hour
Mentored team of 7 junior developers on C# best practices
Built automated CI/CD pipelines with C#, reducing deployment time by 65%
- LLM Engineer @ Datadog**
2020-11 → 2023-08
Created authentication and authorization system using Helm, securing 100000+ user accounts
Led migration from monolithic to microservices using Helm, improving system scalability by 62%
Reduced infrastructure costs by 58% through optimization using GraphQL
- Platform Engineer @ Google**
2016-09 → 2020-05
Built automated CI/CD pipelines with Event-Driven Architecture, reducing deployment time by 66%
Implemented caching layer with CockroachDB, reducing database load by 31%
Reduced infrastructure costs by 53% through optimization using RabbitMQ
Designed and implemented message queue system using CockroachDB, processing 10000+ messages/hour
- Server-Side Developer @ CodeReview.io**
2014-02 → 2016-09
Designed and implemented message queue system using Google Gemini, processing 500+ messages/hour
Architected and built RESTful APIs serving 1000+ requests/day using Replicate, reducing response time by 44%
Created authentication and authorization system using Replicate, securing 5000+ user accounts
Implemented caching layer with ArgoCD, reducing database load by 61%

Where I Studied

- M.Sc., Computer Science**
McGill University (2015)

What I Work With

Python

Rust

NestJS

ASP.NET

LlamaIndex

LangChain

Spring Boot

MySQL

SQLite

PlanetScale

Nginx

RabbitMQ

Kubernetes

Render

Fly.io

DigitalOcean

AWS

Claude API

AWS Bedrock

Replicate

Hugging Face

Agile

Microservices

CI/CD

GraphQL

Things I've Built

- gRPC Services**
Developed Notification Service using LlamaIndex, reducing processing time by 60% through algorithmic improvements
- Event Streaming Service**
Designed and implemented Payment Processing System with LangChain, integrating with NestJS for seamless data flow
- Microservices Platform**
Built Cache Layer with LlamaIndex and NestJS, serving 10,000+ daily active users

Beyond Work

Award: Hackathon 1st Place — Google DevFest 2025

Spoken_language: German (Professional)

Volunteering: Volunteer coding instructor at Gentry and Sons Youth Program, 2020-Present
