SUMMARY

Engineering leader with deep technical background in Node.js, Python, and ASP.NET. 10 years of experience delivering enterprise-scale solutions.

WORK EXPERIENCE

Server-Side Developer 2025-01 — Present

Datadog (contract)

Led migration from monolithic to microservices using Rust, improving system scalability by 28%
Mentored team of 6 junior developers on Git best practices

AI Engineer 2020-05 — 2024-08

Airbnb (full-time)

Designed and implemented microservices architecture using Java, handling 100000+ concurrent users
Implemented caching layer with LLM Integration, reducing database load by 30%
Designed and implemented message queue system using Vercel, processing 5000+ messages/hour

Backend Developer 2016-01 — 2019-12

ResumeAI (full-time)

Optimized database queries using Event-Driven Architecture, improving query performance by 35%
Implemented caching layer with C#, reducing database load by 39%

Backend Developer 2014-11 — 2015-08

SkillBridge (full-time)

Mentored team of 8 junior developers on REST API Design best practices
Built event-driven architecture using FastAPI, processing 5000+ events daily
Created authentication and authorization system using C#, securing 10000+ user accounts
Mentored team of 8 junior developers on REST API Design best practices

EDUCATION

M.Tech. in Information Technology 2016

University of Melbourne

SKILLS

Node.js, Python, ASP.NET, NestJS, Flask, Django, Rails, Neon, Elasticsearch, DynamoDB, gRPC, Docker, Kubernetes, RabbitMQ, Kafka, Fly.io, DigitalOcean, Anthropic, Google Gemini, AWS Bedrock, Microservices, LLM Integration

PROJECTS

Microservices Platform (Django, Python, NestJS)

Implemented Database Proxy using NestJS, achieving 99.9% uptime and handling 50k+ requests daily

Event Streaming Service (NestJS, Python, Node.js)

Designed and implemented Cache Layer with Node.js, integrating with Python for seamless data flow

Database Proxy (*Rails, Django, ASP.NET*)

Designed User Management API leveraging Rails microservices architecture with Django for caching

ADDITIONAL

Personal_statement: Passionate about AI ethics and building technology that makes a difference.

Award: Hackathon 1st Place — Google DevFest 2025

Hobby: Podcasting
