Who I Am

Lead frontend engineering professional with 9 years driving technical strategy and team excellence. Expert in Python, CSS, Vue.js with track record of building and scaling engineering teams.

My Journey

React Developer @ VectorDB Inc

2024-06 → Present
Optimized frontend bundle size using ESLint, reducing load time by 30%
Developed design system using Vercel, standardizing UI across 5000+ applications

UI Engineer @ Twilio

2023-07 → 2024-06
Built real-time collaboration features using Cypress, serving 500+ concurrent users
Optimized frontend bundle size using React, reducing load time by 26%
Integrated third-party APIs using ESLint, reducing integration time by 42%
Created accessible UI components using Next.js, achieving WCAG AA compliance

Web Developer @ Cloudflare

2019-11 → 2023-01
Built interactive data visualizations using Tailwind CSS, serving 1000+ daily users
Built interactive data visualizations using Material UI, serving 100000+ daily users
Created accessible UI components using Tailwind CSS, achieving WCAG AA compliance
Developed design system using Tailwind CSS, standardizing UI across 100000+ applications

UI Engineer @ DeployFast

2016-09 → 2019-09
Built interactive data visualizations using IndexedDB, serving 50000+ daily users
Created progressive web app using Progressive Web Apps, increasing user engagement by 36%
Developed responsive web applications using IndexedDB, improving page load time by 22%

Where I Studied

M.Sc., Information Technology

University of Washington (2016)

What I Work With

- Python
- CSS
- Vue.js
- Svelte
- React
- Figma
- Cypress
- ESLint
- Playwright
- Git
- PostgreSQL
- IndexedDB
- Firebase
- Supabase
- Vercel
- Render
- Cloudflare Pages
- Responsive Design
- Progressive Web Apps
- Component-Driven Development

Things I've Built

UI Design System

Built SPA Framework using React and Vue.js, enabling automated processing and improving efficiency by 40%

Mobile Web App

Designed and implemented E-commerce Platform with React, integrating with CSS for seamless data flow

Form Builder

Developed Real-time Chat using Svelte, reducing processing time by 60% through algorithmic improvements

Beyond Work

- Publication:** "Now meet until believe development seek thank hotel surface who" — NeurIPS 2025
- Spoken_language:** Japanese (Basic)
