EXPERTISE

Scala	Go	XGBoost	Hugging Face
Polars	Neptune	Qdrant	Redshift
PostgreSQL	Pinecone	Neo4j	Bedrock
Lambda Labs	Statistical Modeling		
Vector Databases	RAG		

CERTIFICATIONS

Microsoft Certified: Azure Data Scientist
Microsoft

Profile

Mid-level data science / ml / ai specialist with 3 years building production systems. Skilled in Scala, Go, XGBoost with focus on performance optimization and code quality.

Career

NLP Engineer 2024-01–Present
Amazon
Built real-time analytics dashboard using Dask, used by 5000+ stakeholders
Created recommendation system using MLOps, increasing user engagement by 37%
Designed data warehousing solution using MLflow, enabling analytics on 1000+ records

Data Analyst 2023-03–2024-01
Block
Built ML model serving infrastructure using Hugging Face, handling 10000+ predictions/day
Developed data visualization tools using MongoDB, used by 100+ analysts
Established MLOps practices using Hugging Face, reducing model deployment time by 24%

Education

M.Tech. in Software Engineering
Columbia University, 2021

Projects

MLOps Platform
Created A/B Testing Framework leveraging Lambda Labs for core functionality and Go for optimization

ML Model Training Pipeline
Built A/B Testing Framework using Go and Vector Databases, enabling automated processing and improving efficiency by 40%

Data Quality Monitor
Designed and implemented Recommendation Engine with Go, integrating with Scala for seamless data flow

Predictive Analytics Platform
Created Predictive Analytics Platform leveraging Hugging Face for core functionality and Scala for optimization
