

Profile

Senior devops / sre / mlops engineer with 7 years of experience architecting and delivering enterprise solutions. Expert in Rust, Bash, PowerShell with demonstrated leadership in cross-functional teams.

Experience

Platform Engineer2022-09 — PresentHashiCorp

Implemented log aggregation using Envoy, processing 5000+ logs/day
Implemented container orchestration using Azure DevOps, managing 5000+ containers

Release Engineer2018-07 — 2022-05Block

Built automated backup solution using GitLab CI, ensuring 500% data protection
Created monitoring and alerting system using GitLab CI, reducing MTTR by 46%
Designed and implemented infrastructure as code using Linode, managing 500+ servers

Education

Ph.D. in Mathematics2019University of Michigan

B.A. in Artificial Intelligence2015ETH Zurich

Projects

Chaos Engineering Framework
Developed Secrets Management using Rust, reducing processing time by 60% through algorithmic improvements

Container Registry
Developed Observability Dashboard using Bash, reducing processing time by 60% through algorithmic improvements

Log Aggregation Platform
Implemented Kubernetes Cluster using PowerShell, achieving 99.9% uptime and handling 50k+ requests daily

Infrastructure as Code
Built Observability Dashboard using PowerShell and Rust, enabling automated processing and improving efficiency by 40%
