

Donna Gray

DevOps / SRE / MLOps · Lead

Experience

DevOps Engineer

DeployFast

2022-07 – Present

Built disaster recovery solution using Argo Workflows, achieving RTO of 490ms

Established chaos engineering practices using Kale, improving system resilience

Infrastructure Engineer

Uber

2019-10 – 2022-03

Created self-service provisioning portal using ArgoCD, serving 50000+ engineers

Created monitoring and alerting system using Azure DevOps, reducing MTTR by 24%

Implemented container orchestration using Azure DevOps, managing 10000+ containers

Cloud Engineer

ScaleGrid

2015-04 – 2019-09

Created self-service provisioning portal using CircleCI, serving 10000+ engineers

Built CI/CD pipelines using Kale, reducing deployment time from 30s to 108ms

Built disaster recovery solution using Opsgenie, achieving RTO of 288ms

Built disaster recovery solution using TensorFlow Serving, achieving RTO of 51ms

Education

M.Sc. in Information Technology

Purdue University

Skills

YAML

PowerShell

Rust

HCL

Ansible

Helm

CDK

Pulumi

Projects

GitOps Workflow

Designed and implemented CI/CD Pipeline with HCL, integrating with YAML for seamless data flow

Secrets Management

Designed Kubernetes Cluster leveraging PowerShell microservices architecture with HCL for caching

Log Aggregation Platform

Created Auto-scaling Solution leveraging YAML for core functionality and Rust for optimization
