

Pamela Jensen

pamela.jensen@protonmail.com | 001-728-747-6879x40651 | Christopherview, UK

Senior technical leader specializing in mobile development with expertise in Kotlin, Objective-C, C++. Proven success in technical vision, team development, and stakeholder management.

Experience

Flutter Developer — Salesforce

2024-03 to Present
Created app analytics tracking using SwiftUI, providing insights on 500+ users
Implemented biometric authentication using TypeScript, securing 50000+ user accounts
Built AR/VR features using TypeScript, increasing user retention by 32%
Optimized app performance using SwiftUI, reducing battery consumption by 65%

React Native Developer — ScaleGrid

2021-07 to 2024-03
Built AR/VR features using Core Data, increasing user retention by 68%
Developed cross-platform solution using Fastlane, reducing development time by 20%
Implemented biometric authentication using Core Data, securing 100+ user accounts
Implemented app streaming using Fastlane, reducing download size by 26%

Android Developer — AgentForge

2017-08 to 2021-06
Implemented deep linking using Swift, improving conversion rates by 21%
Created in-app purchase integration using Core Data, generating 100+ in revenue
Developed cross-platform solution using Swift, reducing development time by 54%
Built AR/VR features using Android Studio, increasing user retention by 67%

Education

M.Eng., Cybersecurity

IIT Bombay (2015)

B.Eng., Electrical Engineering

TU Munich (2016)

Skills

- Kotlin
- Objective-C
- C++
- Java
- Expo
- SwiftUI
- CocoaPods
- Xcode
- TestFlight
- Core Data
- SQLite
- AWS Amplify
- Supabase
- RevenueCat
- Firebase
- MVVM
- Clean Architecture
- CI/CD for Mobile
- Offline-First

Projects

Cross-platform SDK

Designed and implemented iOS Application with Kotlin, integrating with Expo for seamless data flow

React Native App

Built Mobile CI/CD with Objective-C and C++, serving 10,000+ daily active users

Mobile CI/CD

Built Flutter App with Expo and SwiftUI, serving 10,000+ daily active users

App Analytics

Developed Mobile Backend API using Kotlin, reducing processing time by 60% through algorithmic improvements

Push Notification Service

Created App Store Optimization leveraging Kotlin for core functionality and Java for optimization

Additional

Passionate about AI ethics and building technology that makes a difference.
