EXPERTISE

Objective-C	C++	Dart	Kotlin	Swift
UIKit	Expo	Flutter	Jetpack	Compose
Android Studio	Xcode	Firebase	Firestore	
Realm	Core Data	SQLite	Supabase	
RevenueCat	AWS Amplify	Firebase		
Offline-First	CI/CD for Mobile			

CERTIFICATIONS

Google Associate Android Developer
Google

Profile

Principal mobile development architect with 13+ years defining technical strategy for enterprise transformations. Subject matter expert in Objective-C, C++, Dart.

Career

Mobile Developer 2022-06–Present

ResumeAI
Built offline-first architecture using CI/CD for Mobile, improving app responsiveness by 69%
Developed mobile application using Fastlane, achieving 5000+ downloads
Developed mobile application using Expo, achieving 50000+ downloads

React Native Developer 2020-04–2022-03

ParseLab
Built AR/VR features using KMP, increasing user retention by 22%
Implemented biometric authentication using KMP, securing 5000+ user accounts
Optimized app performance using CI/CD for Mobile, reducing battery consumption by 26%

Android Developer 2015-10–2019-12

CodeReview.io
Created in-app purchase integration using Android Studio, generating 100+ in revenue
Implemented push notification system using Objective-C, increasing user engagement by 65%

React Native Developer 2013-04–2015-08

CodeReview.io
Implemented app streaming using Offline-First, reducing download size by 48%
Built offline-first architecture using MVVM, improving app responsiveness by 45%
Implemented app streaming using RevenueCat, reducing download size by 20%

Flutter Developer 2011-08–2013-03

ResumeAI
Implemented biometric authentication using AWS Amplify, securing 500+ user accounts
Implemented push notification system using Firebase, increasing user engagement by 59%
Implemented app streaming using Firebase, reducing download size by 53%
Built widget functionality using AWS Amplify, increasing daily active users by 36%

Education

B.Eng. in Data Science
University of Toronto, 2010

Projects

iOS Application
Designed Cross-platform SDK leveraging Swift microservices architecture with C++ for caching

Android Application
Implemented App Store Optimization using Objective-C, achieving 99.9% uptime and handling 50k+ requests daily

Mobile CI/CD
Designed and implemented Android Application with Objective-C, integrating with Expo for seamless data flow

React Native App
Implemented React Native App using Kotlin, achieving 99.9% uptime and handling 50k+ requests daily

Mobile Backend API
Created Mobile Backend API leveraging Dart for core functionality and Objective-C for optimization
