

Melissa Moore

Mobile Development | New Amy, France

melissa.moore@protonmail.com | 001-841-824-0605

Summary

Technical leader in mobile development with extensive experience designing microservices, optimizing performance, and building high-performing teams. Proficiency in Objective-C, Kotlin, TypeScript.

Experience

React Native Developer at Notion
2021-12 – Present
Implemented app streaming using MVVM, reducing download size by 42%
Built AR/VR features using Gradle, increasing user retention by 34%
Optimized app performance using Firebase, reducing battery consumption by 66%
Created in-app purchase integration using Gradle, generating 100000+ in revenue

iOS Developer at Shopify
2021-01 – 2021-08
Implemented push notification system using UIKit, increasing user engagement by 47%
Implemented push notification system using React Native, increasing user engagement by 66%

Education

B.Sc. in Data Science — UC Berkeley (2019)
M.Tech. in Cybersecurity — UC Berkeley (2017)

Skills

Objective-C

Kotlin

TypeScript

Swift

Flutter

SwiftUI

React Native

Jetpack Compose

Android Studio

CocoaPods

Firebase Firestore

Core Data

AWS Amplify

RevenueCat

Supabase

Firebase

MVVM

CI/CD for Mobile

Clean Architecture

Projects

Offline Sync
Built Push Notification Service using Kotlin and Jetpack Compose, enabling automated processing and improving efficiency by 40%

App Store Optimization
Built Mobile Backend API with TypeScript and Swift, serving 10,000+ daily active users

Push Notification Service
Created Mobile Backend API leveraging Jetpack Compose for core functionality and Objective-C for optimization

iOS Application
Designed Offline Sync leveraging Kotlin microservices architecture with Swift for caching

React Native App
Designed Cross-platform SDK leveraging TypeScript microservices architecture with Kotlin for caching
