ABOUT

Senior cybersecurity engineer with 5 years of experience architecting and delivering enterprise solutions. Expert in PowerShell, Python, Snort with demonstrated leadership in cross-functional teams.

BACKGROUND

AppSec Engineer, Block (2024-01–Present)

Built incident response automation using Hashicorp Vault, reducing recovery time by 27%

Built security automation using Hashicorp Vault, reducing incident response time by 37%

Built security automation using Hashicorp Vault, reducing incident response time by 35%

Implemented security monitoring using Python, detecting 10000+ threats

SOC Analyst, Airbnb (2021-12–2024-01)

Implemented identity management using Trivy, securing 1000+ user identities

Built incident response automation using SonarQube, reducing recovery time by 29%

Implemented identity management using PowerShell, securing 1000+ user identities

Designed zero-trust architecture using PowerShell, securing 100000+ endpoints

Security Engineer, Notion (2020-11–2021-08)

Developed threat intelligence platform using Wireshark, tracking 5000+ threats

Conducted penetration testing using Wireshark, identifying 100+ vulnerabilities

ACADEMICS

B.A. in Software Engineering — Georgia Tech, 2019

B.A. in Mathematics — University of Toronto, 2017

TOOLKIT

PowerShell / Python / Snort / OWASP ZAP / Suricata / Burp Suite / Wireshark / Hashicorp Vault / Elasticsearch / PostgreSQL / MongoDB / Redis / AWS Security Hub / Azure Sentinel / GCP Security Command Center / Threat Modeling / OWASP Top 10 / Incident Response

CREDENTIALS

CEH - Certified Ethical Hacker (EC-Council)

ETCETERA

Volunteer coding instructor at Robinson-Walker Youth Program, 2020-Present

"Make green impact next if ask show light" — ACM 2021
