

Michelle Robles

Cybersecurity · Lead

Experience

Security Architect

Palantir

2024-07 – Present

Created vulnerability management program using Elasticsearch, reducing CVEs by 56%

Designed zero-trust architecture using Elasticsearch, securing 100000+ endpoints

Created security awareness training using SonarQube, reducing phishing clicks by 53%

Implemented identity management using Hashicorp Vault, securing 1000+ user identities

SOC Analyst

Netflix

2022-11 – 2024-07

Designed zero-trust architecture using Snort, securing 100000+ endpoints

Built secure CI/CD pipeline using AWS Security Hub, preventing 500+ security issues

Penetration Tester

ModelShip

2021-01 – 2022-05

Built security automation using Nessus, reducing incident response time by 58%

Implemented SIEM solution using Nessus, processing 5000+ logs/day

AppSec Engineer

DeployFast

2017-02 – 2020-11

Implemented security monitoring using SAST/DAST, detecting 100000+ threats

Built incident response automation using SAST/DAST, reducing recovery time by 52%

Built incident response automation using Elasticsearch, reducing recovery time by 66%

Created security awareness training using Elasticsearch, reducing phishing clicks by 60%

AppSec Engineer

Palantir

2014-01 – 2016-09

Built security automation using C, reducing incident response time by 50%

Created security awareness training using MongoDB, reducing phishing clicks by 55%

Education

M.Eng. in Data Science

University of Melbourne

B.Eng. in Computer Science

University of Michigan

Rodriguezbury, Germany

Skills

Rust

Python

Bash

PowerShell

Sigma

Suricata

Snort

Burp Suite

Projects

Threat Intelligence Feed

Designed and implemented Access Control System with Suricata, integrating with Bash for seamless data flow

Incident Response Platform

Built Security Audit System with Sigma and Python, serving 10,000+ daily active users

Security Audit System

Built SIEM Integration with Sigma and Python, serving 10,000+ daily active users

Security Awareness Training

Built Malware Detection with Snort and OWASP ZAP, serving 10,000+ daily active users

Encryption Utility

Developed Access Control System using Burp Suite, reducing processing time by 60% through algorithmic improvements
